

## After the exchange:

### Evaluating your exchange experience

Through the evaluation process, the Project Team receives vital assessment information from both the experts and host organizations concerning the programme and the exchanges. Your individual comments and opinions play an important role in the further development of the EU Exchange of Experts Programme.

### A new evaluation form

A evaluation form for experts and host organisations has been developed with an updated focus on areas such as the active participation of the expert, the actual programme provided by the hosting organization, and the added-value for expert and host.

And because the impressions of the exchange are often the most vibrant and significant when fresh, we ask that you ***fill in your evaluation form within two weeks after the exchange***. Please send your completed form to the Project Team by post email or fax.

- **Evaluation form for experts**
- **Evaluation form for host organisations**

Thanks for your participation!
